

Tehnički list za artikl: HSETEST02L

Mrežni LAN ispitivač, BNC/RJ45/RJ11

s integriranim PoE ispitivačem. Glavna i daljinska jedinica su opremljena LED zaslonom i torbicama. Mogućnost ispitivanja kontinuiteta, spoja, uzemljenja i na kratki spoj.

SCHRACK-Info

Practical cable tester for telephone and network cables.

The device checks all wire pairs and detects faults such as open, short-circuited, crossed, or twisted cable pairs, as well as split pair faults, in a matter of seconds.

With the corresponding remote unit, a cable or line can also be tested after installation.

Operation is simple, with clear display via LEDs.

A battery is not included in the scope of delivery.

The PoE tester indicates whether PoE voltage is present and, if so, on which wire pairs (1-2/3-6 or 4-5/7-8).

Features:

- Continuity and connection testing of network or telephone patch cables with RJ45 or RJ11 plugs
- PoE test supports IEEE802.3af and IEEE802.3at
- Easy to read cable status and verify cable continuity, open short and miswire
- The remote kit can be used to test installed connections via sockets or panels
- Identifying cabling configurations
- With auto or manual scan
- Operates with a 9V block battery (not included in delivery)

Package Content

- 1 x Masterbox
- 1 x Remote unit
- 1 x PoE Tester

- 2x BNC adaptor cables
- 1x BNC male to male adaptor
- 3x RJ45 to RJ11 adaptors
- 1x Network Cable
- 1x User manual

General product data:

- Weight: 0.255kg
- Height: 45mm
- Width: 120mm
- Length: 190mm
